Bountiful baskets

Explore our selection of beautifully presented Christmas gift sets, each one containing top quality festive food and drinks sourced from some of Ireland's best artisan producers, matched with exceptional wines from both New and Old World vineyards.

Why not supplement your taking by offering Christmas gift boxes for sale? Customers will have gift buying in mind, so place a gift box beside the till to encourage impulse buys.

There's also an opportunity to link the cheeses on offer on your menu to those available in the boxes. Add a note beside your cheeseboard option, giving customers to "take a taste home!"

The perfect party alternative?

If Covid-19 has thwarted your plans for the usual staff Christmas party, giving your employees well-stocked gift boxes may be the ideal way to thank them for their hard work throughout this extremely challenging year.

Online parties

Why not schedule a virtual online party using video conferencing software, earmarking a date when the gift boxes have just been delivered? In a time when it's harder than ever to maintain a sense of togetherness amongst staff members, this may be an ideal alternative to the usual party, allowing your teams to raise a glass and toast each other, enjoy their special gift set treats together and foster a sense of camaraderie.

Note: Please note that if a product is unavailable, it will be substituted with a product of the same value. Gift Sets with wine included are only available to customers in the Republic of Ireland.

Old World Wine Triple Gift Set

Three favourites from the Old World, including organic red and white wines in addition to Prosecco, ideal for festive toasting.

What's included:
Alternature Sauvignon Blanc (Organic)
